
Sales Analysis Dashboard - Superstore_Data

Sandhya burje

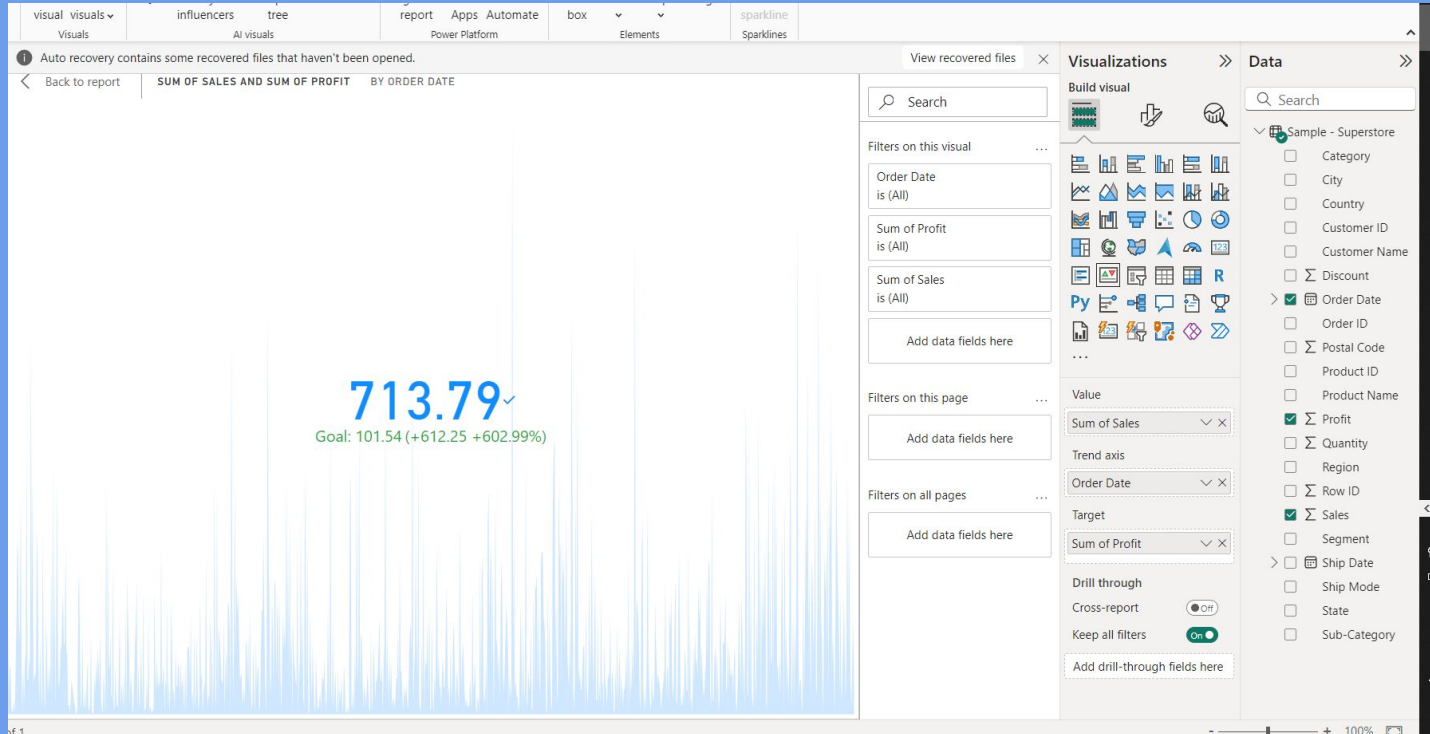

-11/04/2025

Objective

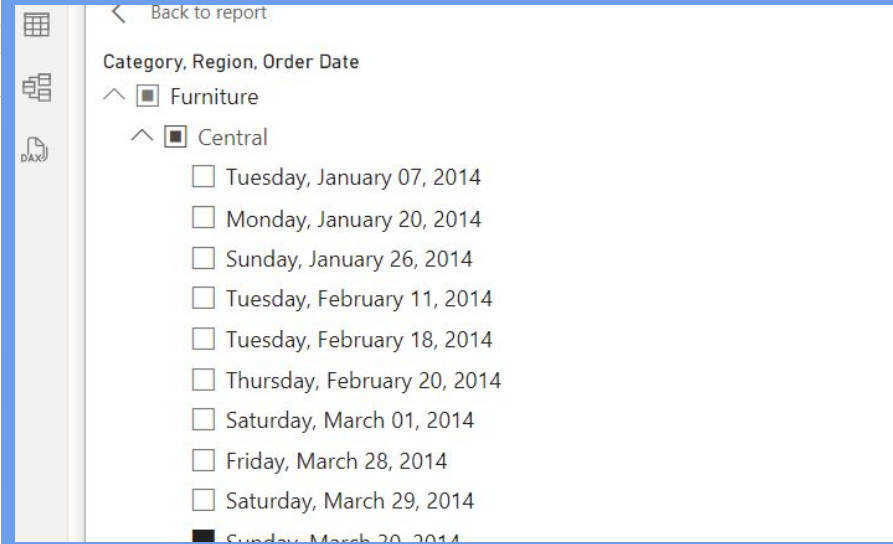

What was the goal?

“To analyze and visualize sales & profit performance over time using KPIs, slicers, and visual trends for better business decisions.”

KPI - (Total Sales, Goal, Growth %, and how this helps quick insight)

Slicers for Interactivity - (Region, Category, Date these allows dynamic filtering of the visuals)

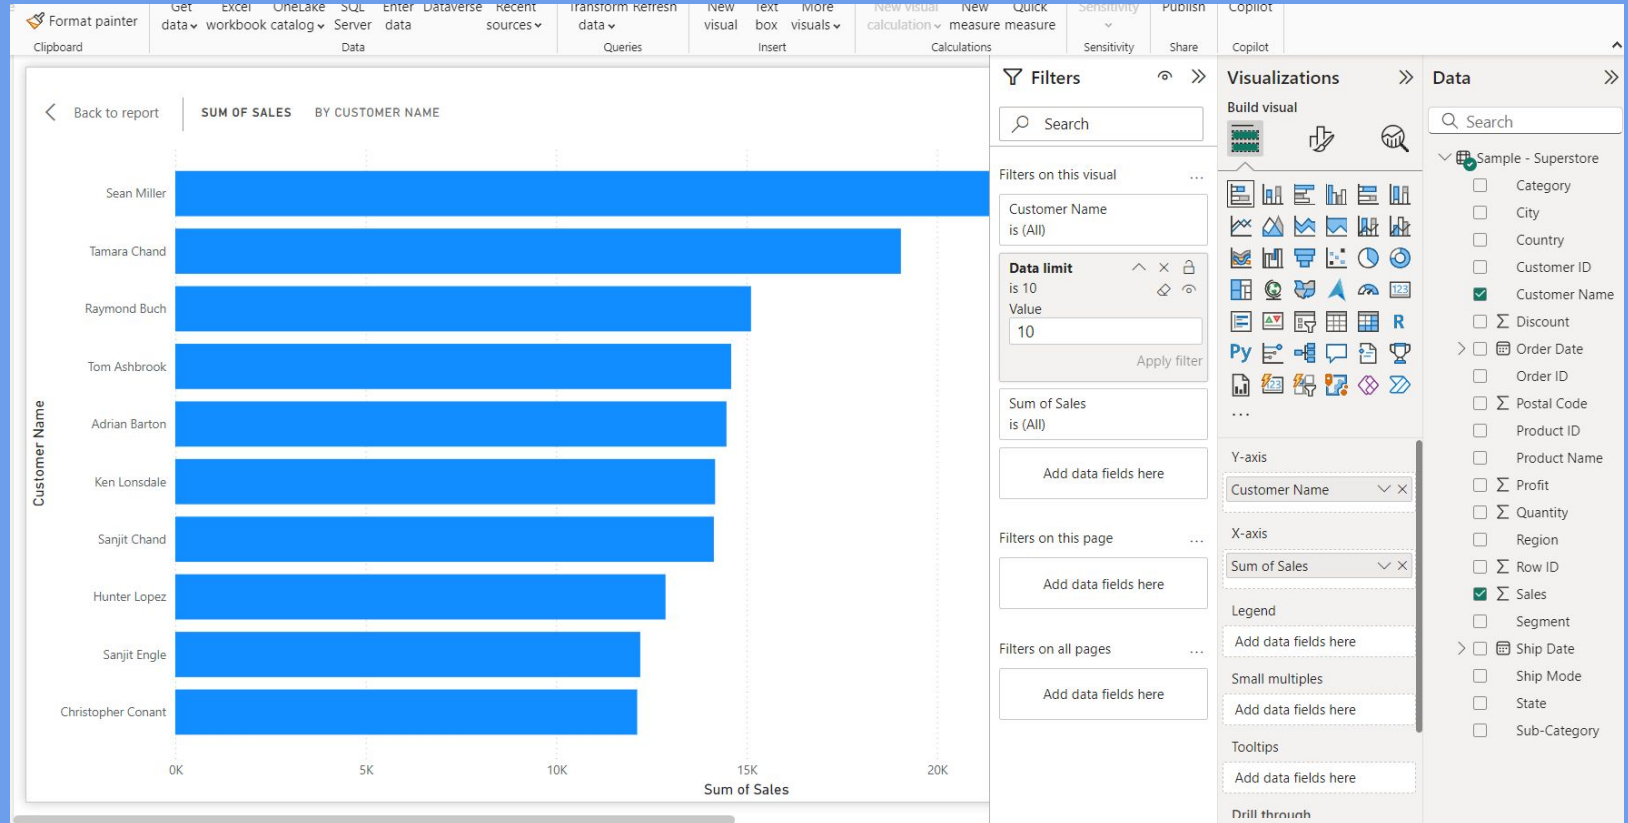

Trend Analysis (Line Chart)

line chart (Quantity over time)
Shows seasonality or demand pattern
over months

Top Customers (Bar Chart) - top 10 customers visual helps target loyal customers or identify VIPs

Navigation menu

it improves **usability & UX**, and gives an **app-like** feel

Conclusion !

- “Sales performance is significantly above goal”
- “Top customers drive majority of revenue”
- “Slicers help focus analysis on regions/categories”

Thank you
